Profile

Creative and detail-driven Software Engineering undergraduate with a strong foundation in graphic design and growing front-end development skills. Known professionally as **Olamzy_Graphics**, I have delivered brand identities, logos, flyers and social media campaigns for individuals and small businesses, while building a personal portfolio website from scratch. I bring together visual creativity and technical problem-solving, and I'm looking to grow as a full-stack creative who can take a project from concept to a fully functioning, pixel-perfect reality.

Work Experience

Computer Operator

2023 — 2024

Sunnyb Global Enterprises

Operated and maintained office computer systems for daily business use; handled data entry, document processing and printing; assisted clients with basic computer-related tasks and troubleshooting.

Teacher

2022 — 2023

New-Height Nursery & Primary School

Taught foundational literacy and numeracy to pupils; prepared lesson plans and classroom materials; supported pupils' overall learning and development.

Selected Projects

- **Olamzy_Graphics** — personal brand identity, business card & letterhead
- **Murty Building Contractor** — full brand identity for a construction company
- **Boi Adufe** — event-photography logo (Frame Concept)
- **Amoke & Co Collection** — product promotion campaign
- **TumzyGlobal Laundry Service** — promotional flyer design
- **NESA Lagos** — "Myths vs Facts" Instagram campaign
- **Eddy's Gadget** — five logo concept explorations
- **Personal Portfolio Website** — built with HTML, CSS & JavaScript
